Community Gathering Sessions: 2:00 PM - 5:00 PM

Boston Winery

26 Ericsson St, Boston, MA 02122

Parking Available

Coffee and Tea will be provided

Welcome and Introductions

2:00 - 2:15: Bob Chen

Session I - Increasing Diversity in Your Programs

2:15- 2:55: Aimee Bonanno

Participants will share in small groups some strategies that they use and some challenges that they face in efforts to increase diversity in their programs. The top few ideas will be shared with the larger group in an initial effort to compile a set of resources and effective practices.

Session II - Achieving Coastal Resilience Together

3:00 - 3:40: Bob Chen

Participants will characterize their programs by location, age group, and duration on colored stickies. They will then place their programs on Boston Harbor maps in an effort to identify connections between educational programs. An examination of the overall map will be used to identify gaps and optimize collective impact through multiple pathways.

Session III - Developing New Collaborations

3:45 - 5:00: Rebecca Shoer

Based on the connections identified in Session II, we will work with new partners to generate new programs, adapt existing programs, or propose cross-advertising strategies that will support participants in their trajectories. New ideas will be shared and feedback sought with action plans resulting.

Wine Tasting: 5:00 PM - 6:00 PM

Winery tour and pizza provided. Cash Bar available for tasting.
